Swiss Chemical Society-Syngenta IYC 2011 Symposium: Modern Catalysis for Sustainable Chemistry

Friday October 28, 2011, Syngenta Stein, Switzerland

As part of the International Year of Chemistry 2011 and in partnership with the Swiss Chemical Society, Syngenta is organizing on its campus in Stein, Switzerland a one-day symposium entitled "SCS-Syngenta IYC 2011 Symposium: Modern Catalysis for Sustainable Chemistry". The event will focus on **catalysis (bio-, organo- and organometallic)** as a powerful tool to address the sustainability challenge in chemistry.

The symposium will take place on Friday October 28, 2011 at our research center in Stein, main auditorium, WST-810-E-75, close to Basel in Switzerland. The program will feature 4 plenary lectures (**Prof. Uwe Bornscheuer, Prof. Frank Glorius, Prof. Cristina Nevado and Prof. Jonathan Ellman**) and 5 invited short lectures, divided between 2 sessions. A poster session will round out the program. **Poster abstracts should be submitted online, see www.syngenta.com/country/ch/de/symposium/ by September 30, 2011.**

Attendance will be limited to ca.150 participants. **Registration is free. Please, register on line at www.syngenta.com/country/ch/de/symposium/ before September 30, 2011.** Please check the conference web-pages for more details and the scientific program www.syngenta.com/country/ch/de/symposium/.
